

Ross Transportation Services, Inc.

## Full Service Transportation & Logistics

Rely on Ross. We do it right!

### TOTAL CUSTOMER SERVICE

At Ross Transportation Services, Inc., service is what we do best. For more than 60 years, we have offered reliable, professional transportation services. Our drivers are prompt, professional and conduct transportation services efficiently, saving you time and money.

Our drivers are highly skilled professionals who have accumulated millions of safe-driving miles. All drivers are thoroughly trained in DOT and EPA regulations, paperwork requirements, emergency procedures and the use of special safety equipment.

Many potential problems are eliminated before the truck leaves your premises because our drivers provide on-site assistance with manifests, shippers, DOT drum labeling and EPA marking requirements.

In addition to hazardous and non-hazardous waste transportation, we offer specialized services to meet your transportation and packaging needs.

### TRAINING & EXPERIENCE

- ◆ Professional drivers trained in DOT, EPA and OSHA regulations and requirements.
- ◆ Quarterly driver training updates.

### VALUE

- ◆ Ross Transportation offers competitive pricing for quality services, knowledge and safety.

## SERVICE: ON TIME, EVERY TIME

We are a certified, duly license full service transportation company. We specialize in the transportation of hazardous and non-hazardous waste both to the Ross Incineration Services, Inc. facility and to other treatment, storage and disposal facilities. We have hazardous waste transportation authority in 21 states. We are also able to handle your contract carrier needs.

We have a **managed transfer station** at the company's terminal in Grafton, Ohio.

**Safety** is of the utmost concern to us. We're proud to boast that we have the highest safety rating given by the Federal Highway Administration (FHWA). We also received Safety and Health Achievement Recognition Program (SHARP) status from the Ohio Bureau of Workers' Compensation (BWC) Division of Safety & Hygiene. We are also members of the National Safety Council and also the U.S. Environmental Protection Agency's SmartWay<sup>®</sup> Transport Partner program.

We carry General Liability, Auto Liability and Cargo insurance at limits in excess of those required by law. We also carry specialty insurance such as Pollution Legal Liability and Contractor's Operations/ Professional Liability Insurance, to further protect our valued customers.

We're proud of our extensive fleet. All vehicles and equipment are maintained by a staff of qualified technicians. Thorough vehicle maintenance and preventative care help ensure safety and reliability.

## What Customers are saying about us:

"When we use Ross, we know the load will go out correct."

"Driver's performance and transportation services - excellent!"

Quotes from a major automotive manufacturer

"We consider Ross to be the standard for the industry."

"We feel the quality of Ross is superior and we feel comfortable when our shipments leave our facility."

Quotes from a major chemical manufacturer.

## VAN TRAILERS

For transporting containerized wastes, we have a fleet of van trailers with the following characteristics:

- 48 foot vans
- Swing doors
- 110 foot inside height
- 102 inches wide
- Lift gate (limited availability)

Each trailer is equipped with recovery drum, absorbents and load locks.

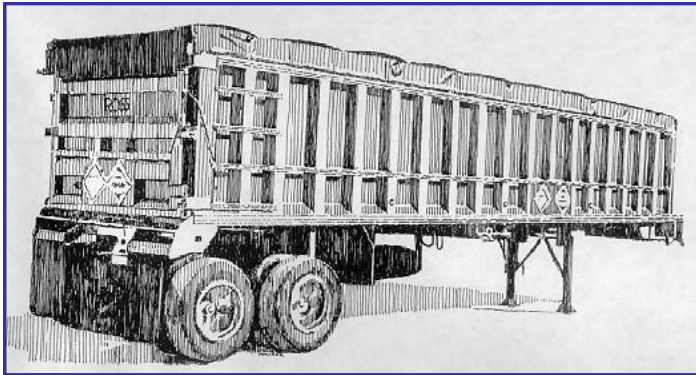

---

## LTL SERVICES

For generators and companies with multi-plant locations, we offer affordable Less-Than-Truckload (LTL) transportation for 40 drums or less.

All customers can take advantage of special lower transportation rates by utilizing our LTL services. We can supply a lift gate for generators who need loading assistance.

---

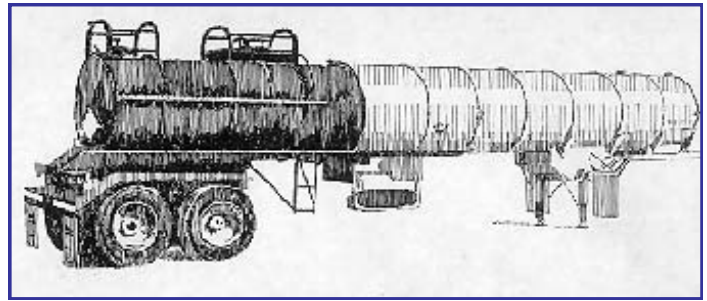

## DUMP TRAILER

Another option for handling bulk solids is our dump trailers, offering customers the following features:

- 38 foot length
  - Teflon floor for easy slide-out
  - Roll tarp
  - Water-tight sealed gate
  - 70 cubic yards
- 

*Choose Quality.*

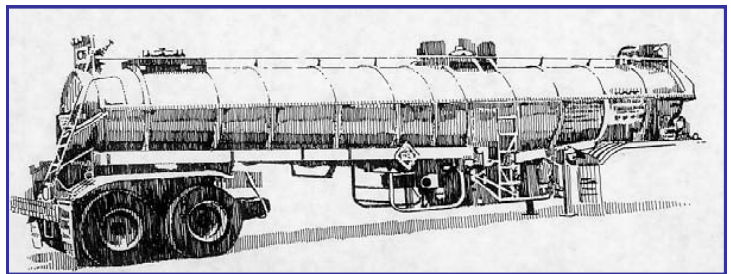

*The Investment Invariably Comes Home.*
